

ID	Title	Authors	Year
1	Green software engineering: the curse of methodology	Hindle, Abram	2016
2	Smartphones power consumption & energy saving	Zaman, Noor; Almusalli,	2017
3	Energy saving strategies in the design of mobile devices	Meneses-Viveros, Amilcar; Herná	2018
4	Architectural Tactics for Energy Efficiency: Review of	Paradis, Carlos; Kazman, Rick;	2021
5	Software development lifecycle for energy efficiency:	Georgiou, Stefanos; Rizou,	2019
6	Optimization in power usage of smartphones	Naik, Balaji A.; Chavan, R. K.	2015
7	Knowledge for a longer life: development impetus for e	Hans, Ronny; Burgstahler, Daniel	2015
8	A review of energy measurement approaches	Nouredine, Adel; Rouvoy, Roma	2013
9	Modeling, profiling, and debugging the energy consum	Hoque, Mohammad Ashraful; Siel	2015
10	Green IT–Available data and guidelines for reducing en	Ardito, Luca; Morisio, Maurizio	2014
11	Software energy measurement at different levels of gra	Ghaleb, Taher Ahmed	2019
12	Refactoring for energy efficiency: A reflection on the	Pinto, Gustavo; Soares-Neto,	2015
13	ENERGY CONSUMPTION PATTERNS OF MOBILE	AL NIDAWI, HASAN SAJID	2017
14	Mining questions about software energy consumption	Pinto, Gustavo; Castor, Fernando	2014
15	Towards applying reengineering services to energy-effi	Jelschen, Jan; Gottschalk, Marior	2012
